

DIPAK BARMAN

Senior Full Stack Developer | Web & Mobile Applications

Jalpaiguri, West Bengal, India | +91 7029682335 | dipakbarman080@gmail.com
linkedin.com/in/dipak-barman-dev | [Portfolio Website](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 8+ years of experience building and deploying scalable web and mobile applications. Specialized in JavaScript/TypeScript ecosystems (React.js, React Native, Node.js, Express) and PHP frameworks (Laravel, CodeIgniter), with strong command of REST API design, authentication, and performance optimization. Proven ability to own projects end to end and deliver clean, maintainable code. Seeking a Senior Full Stack Developer, Technical Lead, or Engineering Manager role.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, HTML5, CSS3
- **Frontend & Mobile:** React.js, React Native, Responsive UI/UX, State Management (Redux/Context)
- **Backend:** Node.js, Express.js, PHP (Laravel, CodeIgniter), Socket.io, REST API Design, Real-Time Communication
- **Databases:** MongoDB, MySQL
- **Integration & Auth:** REST APIs, Third-Party/Payment Integration, JWT/OAuth Authentication, Licensing & Activation Systems

KEY ACHIEVEMENTS

- Architected and shipped a full-stack event ticketing platform end to end, owning both web and mobile codebases, with secure payment integration and real-time ticket scanning that reduced manual validation effort.
- Delivered cross-platform mobile and web applications over 8+ years, consistently improving load performance and user experience through optimized APIs and clean architecture.
- Led development across the full cycle—design, backend APIs, and deployment—cutting release time through reusable components and streamlined workflows.

PROFESSIONAL EXPERIENCE

TIXME

Full Stack & Mobile App Developer

June 2024 – Present

India

- Designed and built TixMe, a web-based event ticketing platform enabling customers to browse events and purchase tickets, using React.js, Node.js, Express, and MongoDB.
- Implemented secure user authentication, dynamic event listings, and integrated payment processing for end-to-end ticket purchasing.
- Developed an Android scanner app with React Native allowing event organizers to scan and validate tickets in real time, improving on-site check-in speed.
- Optimized backend performance and delivered a clean, consistent UI across web and mobile platforms.

Essane Infotech

Software Developer

April 2022 – June 2024

India

- Developed and maintained high-performance web applications and custom e-commerce platforms for various client projects.
- Contributed to the frontend and backend development of Qbag, a React Native local food delivery application.
- Assisted in building ProMedilabs, a comprehensive online laboratory management system utilizing PHP/Laravel and React Native.
- Collaborated in Agile teams to deliver features on strict deadlines, ensuring clean code and high software quality.

CoDesk Softwares Private Limited

Full Stack & Mobile App Developer

January 2016 – April 2022

Siliguri, West Bengal, India

- Designed and built scalable web and mobile applications using React.js, React Native, Node.js, Express, MongoDB, and PHP (Laravel & CodeIgniter).
- Owned both frontend and backend development, integrating REST APIs and managing relational and document databases.
- Optimized application performance and improved user experience across client projects, contributing to repeat business and long-term client retention, while maintaining clean, maintainable codebases.

PROJECT HIGHLIGHTS

- **TixMe – Event Ticketing Platform:** Full-stack web app (React.js, Node.js, Express, MongoDB) with secure auth, event management, and payment integration, paired with a React Native ticket-scanning mobile app for real-time validation.
- **WhatsApp Bulk Messaging Platform with Licensing:** Real-time bulk messaging app (React, Socket.io) with live delivery-status updates and a CodeIgniter 4 license system for activation, validation, and expiry control.
